

UPDATE IMPORTANT STUDENT INFORMATION IN SKYWARD

for Returning Students

During this pandemic it is extremely important to have updated contact, emergency and medical documentation and information.

HERE'S HOW YOU CAN GET STARTED!

Step 1

To begin that process, families will go to the District website at

www.estl189.com

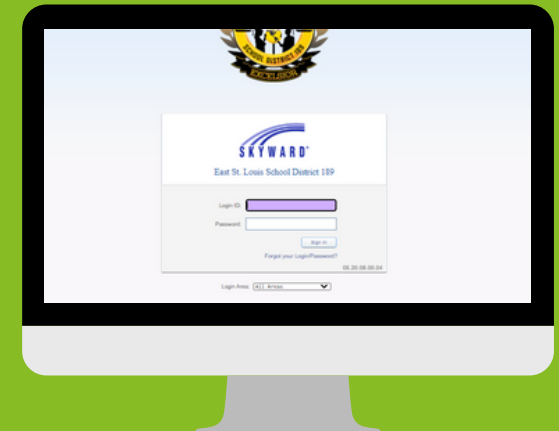

Step 2

Locate and click the Skyward icon on the right.

Step 3

Log into the system using your family access information and proceed to update your child's information

If you do not know their login information, please see your school's clerk. The clerks will also have to approve some changes to the information with documentation (e.g. address change will require two proofs of residency; phone number changes will not.)

If you have questions, comments or concerns, please submit them to questions@estl189.com.
